INTRODUCTION

In 1875, New York State took a state-wide population census. Harrison Halftown was hired as the enumerator to take the census of the residents of the Allegany Reservation, which he did from June 14 - July 14, 1875.

The original copy of this census is located in the offices of the Cattaraugus County Historical Society in Little Valley. This original copy was also microfilmed by the Church of Jesus Christ of Latter-day Saints (microfilm no. 0584492). In 1995, Jack T. Ericson and Mrs. Gina Palermo abstracted and produced a computer generated abstract and index of this census.

The original census forms asked for 21 categories of information as follows:

1. Dwellings numbered in order of visitation
2. Dwelling construction
3. Value of dwelling
4. Families numbered in order of visitation
5. Name of every person whose usual place of residence was in the family as of June 1, 1875
6. Age
7. Sex
8. Color (White, Black, Mulatto, Indian)
9. Relation to head of household
10. In what county of New York State, or in what other state, or foreign country, born
11. Now married
12. Now widowed
13. Single
14. Profession, trade, or occupation
15. Place of employment if outside of residential area
16. Voters - Native
17. Voters - Naturalized
18. Alien
19. Owner of land
20. Over 21, and not able to read and write
21. Deaf and Dumb

In producing this abstract, not all of these categories were recorded. In order for clarification those categories used will be briefly discussed, as listed above.

1. Dwellings numbered in order of visitation
There are 172 dwellings listed in the census. On the printout this is the first column, labeled "Visit." This is the number used to key the index.
2. Dwelling construction
This is the second column:
F = frame
L = log
P = plank

3. Value of dwelling

This is the third column labeled "Value." It provides a monetary figure for the value of the building.

4. Families numbered in order of visitation

This fourth column is labeled "order." In some cases more than one family resides in a single dwelling, which means the families will have separate numbers, but share the dwelling number.

5. Name of every person whose usual place of residence was in the family as of June 1, 1875.

This column is labeled "name." When brackets are used around a name or any abbreviation in this or other columns, it indicates that the original was unclear and that the information given within the brackets is an educated guess.

6. Age

This column is labeled "age." Fractional entries, i.e. 6/12, indicate an age in months.

7. Sex

This column is labeled "sex." M = male F = female

8. Omitted

9. Relation to head of household

This column labeled "Rela", provides the relationship of each person in the family to the head of the family. This is accomplished by using the following abbreviations:

ACH = adopted child
AD = adopted daughter
AS = adopted son
BR = brother
B = boarder
CH = child
D = daughter
F = father
GD = granddaughter
GF = grandfather
GGD = great granddaughter
GGS = great grandson
GM = grandmother
GS = grandson
H = husband
M = mother
NI = niece
NP = nephew
PT = patient
S = son
SD = stepdaughter
SER = servant
SI = sister
SS = stepson
W = wife

10. In what county of New York State, or in what other state, or foreign country born.

This column is labeled "born." Most entries will be:

A = Allegany Reservation

C = Cattaraugus Reservation

All other geographical locations are given as in the original. Spelling has not been changed.

11. Now married

12. Now widowed

13. Single

These three categories are listed under the column labeled "Marital."

M = married

S = single

W = widowed

14. Profession, trade, or occupation

This column is labeled "Profession" and some abbreviations have been used, such as Pres/SN/Farmer = president, Seneca Nation, farmer.

15. Place of employment if outside of residential area

This column is labeled "place" and is rarely used.

16. Omitted

17. Omitted

18. Omitted

19. Omitted

20. Omitted

21. Deaf and Dumb

This category is labeled "Deaf" and an X is used to indicate this status.

C O R R E C T I O N S

There are two corrections to this abstract - two names are out of order. In Visit No. 59, Minnie Shongo should appear between Dallie Shongo and Z. W. Jameson. In Visit No. 89, Samuel Titus should appear between Rebecca Billy and Sarah Titus.

M A R R I A G E S A N D D E A T H S

In addition to the 21 categories of information, the 1875 census also lists marriages and deaths occurring on the Allegany Reservation for the year ending 1 June 1875. This information begins on page 20 of this abstract.

A G R I C U L T U R A L S T A T I S T I C S

Not included in this abstract are the 114 categories of agricultural statistics which are found in the original census. This agricultural information is a help in establishing a family's wealth in relation to neighbors. Unfortunately the agricultural statistics are incomplete in the original census.

I N D E X

The every name index is keyed to the visit number (first column). Those five names surrounded by brackets at the end of the index also have been added to their proper place in the list, by typing them on the right side of the page.

Important

The names on pages 20-21 (Marriages and Deaths) have not been included in this index. Please check these pages.
